Рисунок – Создали новые изменения и вернули в исходное положение

Все задания в локальном репозитории были выполнены
Для вида каждой папки мы добавим файл Check.txt, чтобы каждая папка отображалась в удаленном репозитории
`echo "Это файл Check.txt" > Check.txt`

ЗАДАНИЯ В УДАЛЕННОМ РЕПОЗИТОРИИ:

Посмотрим информацию об удаленном репозитории:

```
nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25 (main)
$ git remote -v
origin https://github.com/ZerrTheMan/IGIforRepository.git (fetch)
origin https://github.com/ZerrTheMan/IGIforRepository.git (push)
```

Для отправления изменений на удаленный репозиторий:

```
nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25 (main)
$ git push origin main
Everything up-to-date
```

Или просто `git push` для отправления всех изменений

d) Для переименовывания репозитория открываем настройки на github

А затем изменяем ссылку в локальном репозитории:

`git remote set-url origin https://github.com/ваш_username/my-renamed-repo.git`

И на всякий случай проверяем `git remote -v`

e)

```
nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25 (main)
$ git fetch origin

nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25 (main)
$ git pull origin main
From https://github.com/ZerrTheMan/IGIforRepository
* branch      main      -> FETCH_HEAD
Already up to date.
```

Получили данные из удаленного репозитория и затем синхронизировали ветки

f) Для просмотра истории использовали `git log`

Или для поиска определенных данных

`git log --since="2023-01-01"`

Или `git log -n 2` (Для последних двух коммитов)

`git rm ...`

```
git push -u origin branch
git commit -m ""
git rm -r
git mv stariy.txt novii.txt
echo "Отчёт по ЛР1" > report.txt
mkdir task1 task2
touch report.txt
```

g) Переместили 2 файла с ветки main в branch

```
nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25/353501_STANKEVICH_25/IGI (main)
$ git status

$ git checkout main -- file001.txt file002.txt
```

Для удаления ветки с удаленного репозитория

git push origin --delete <имя_ветки>

```
nikmi@LAPTOP-L5A2CS6R MINGW64 /c/IGI/353501_STANKEVICH_25/353501_STANKEVICH_25/IGI (branch1)
